

GREEN MEETINGS

At Cordis, Hong Kong, we will help you to build environmental considerations into your meeting and make your event not only productive, but also sustainable from start to finish. We are accredited with ISO 14001 and Earthcheck Platinum certification, guaranteeing the highest standards of environmental management.

SUSTAINABLE MEETING VENUES AND SERVICES INCLUDE:

- Environmentally friendly resources: electronic signage; white boards; reusable linen, dining ware and cutlery.
- All paper consumables are FSC certified and drinking straws are made from compostable materials.
- Complimentary Wi-Fi includes free access to Pressreader for a wide selection of digital newspapers and magazines.
- Optional well-being services to compliment your meeting include an exclusive Tai Chi class, a Mongkok market tour and use of our Earthing Garden (these services need to be pre-arranged and may be chargeable).

SUSTAINABLE FOOD & BEVERAGE INCLUDES:

- Filtered drinking water or refreshing flavoured water coolers at your drinks station to replace conventional plastic bottled water.
- A nostalgic Hong Kong candy station with rotating choices of tabletop candy during working sessions.
- We are committed to including a quality selection of healthy, vegetarian dishes in our menus, as well as dishes focusing on locally sourced seasonal produce. Western set lunch menu with sustainable seafood is also available at an additional HK\$50 per delegate.
- We serve a selection of loose organic and fair trade teas during conference breaks.
- A premium well-being break available at an additional HK\$50 per delegate (minimum for a group of 50).

CARBON NEUTRAL MEETING

We would like you to leave with a positive impact for your group and for the environment.

- The carbon footprint of your meeting will be calculated and offset via one of our selected green projects, working with South Pole Carbon Offsets.
- A carbon neutral certificate with your company name and project factsheet, will be presented at the beginning of your meeting.
